

COMMUNICATION to All pilots and co-pilots

With great pleasure we extend to you our most cordial and affectionate welcome to Gemona for the second edition of the Rally Ronde Alto Friuli / Luca Birarda. Also this year we are organizing a race with a Special Stage, called "Stella", a classic of rally racing with interesting and spectacular values.

The Special Stage Stella (km 10.250 on asphalt) is a very much loved trek by drivers for its shape which leads to a gradual approach to the car gradually they thread the path. The trek has a very rhythmic start, with winding curves and it arrives at the village of Stella, where the rider, taking the necessary confidence in your own car, must let go on a downhill, trough some traits mixed-speed, leaving breathless. Arriving into the village of Flaipano the speed gives way to a mixed-fast driving with a hump between the houses of village Frattin and the many closing curves that characterize the remaining route, including up and down, until the end of race, positioned 300 meters before the village of St. Elena in Montenars.

We sincerely hope that this race can give to all of you a great day of sports. We hope in your sportsmanship and also in your spirit of cooperation with the Marshals of the course, and we ask you to give prompt notice of any withdrawal calling the number 0432/973258.

We wish you a sincere "good fun " and a big "good luck"!

The Organizing Committee
